David Heathcote *Family Masquerade* 2002 oil on canvas 137cm x 170cm

The exhibition is a celebration of the varied processes used by each artist – how they approach their subjects, the particular imagery they use, and the materials used to execute their vision. The work on show is as individual as the artists themselves; Whether abstract or figurative, bright and bold or quiet and subtle, the range of subject matter and media is diverse and engaging.

The upstairs gallery features paintings and sculpture, while spaces downstairs explore photography, collage and works on paper. The sculpture courtyard is a showcase for outdoor sculpture.
